## New User Interface

### **Civil Case Opening:**

The Nature of Suit and Cause of Action fields have been modified to permit the user to filter the items displayed in the pick list. The user can enter characters in the Filter field, which immediately narrows the drop down list to just the items that match the string entered. To change the filter, the user can type over the characters already entered, or click the Clear filter button, which returns the contents of the drop down to the complete list:

## Case Participant Tree:

The tree will be located in the left partition of the screen. The following is a list of new icons that will appear in the tree:

-  Delete this party from this case.
-  Add new alias, corporate parent, or attorney.
-  Copy attorney(s) from other parties in the case to this party.
-  Edit the party, alias, corporate parent, or attorney. Only displays beside actual names of participants, so if no participant has been added, this icon is suppressed.
-  Change the name of the party.

The Participant Tree allows the user to view a list of participants added to the case while docketing either in collapsed or expanded form:

To add information to the party once they are a party to the case, click on appropriate icon beneath their name. The user may add an attorney by clicking on the attorney icon under the party name, as well as copy an attorney from one party and add to another (if applicable). The user may also delete a party by clicking on the delete icon (red X) next to the party name. Once all parties have been added, click on **Create Case** above the parties in the left partition and the case will be opened.

Note: If the user clicks the Back button from the participant processing screen, then clicks on the Forward button **without** making any changes, the participants will remain in the participant tree. The user will be able to continue adding and modifying participants. If any changes are made on the previous screen, the participant tree will be cleared.

## Documents and Attachments:

The process of adding a main document and attachments has been streamlined into one screen:

Date document filed (mandatory)  
6/11/2010

Select the pdf document and any attachments.

**Main Document**  
G:\DOCS\CMECF\ScanDocs\1.NEW CIVIL

Attachments	Category	Description
1. G:\DOCS\CMECF\ScanDocs\1.NEW CIVIL <input data-bbox="544 493 641 514" type="button" value="Browse..."/>	Exhibit	<input data-bbox="1161 493 1242 514" type="button" value="Remove"/>
2. <input data-bbox="544 535 641 556" type="button" value="Browse..."/>		

As the user adds attachments, a new row will appear to allow another attachment to be added. If there is not another attachment to add, simply click on Next. If the attachment should be removed, click on Remove to the right of the row. If the user clicks on Clear, all documents will be cleared and the screen will return to the default state.

## Miscellaneous Modifications

### Query Screen and Docket Sheet Report:

The Query screen has been modified to provide more options for more refined searches, allowing users to run a query for a Cause of Action. The Docket Sheet Report now allows users to select a time period when running a report for a docket with a large amount of entries:

### Docket Sheet

The report may take a long time to run because this case has many docket entries. You can go back and modify the selection criteria or select one of the following options.

Include docket entries:
